DEATHS.

—Mr. Jephtha Lancaster, the oldest
male citizen of Lexington, lacking
less than seven years in rounding out
the century mark, died at the home of
his daughter, Mrs. Robert B. Elliott,
in that city Thursday night at 10
o'clock.

Mr. Lancaster was a native of Fayette
county, having been born at
Athens September 25, 1817, therefore
approximately four months more than
93 years of age. Mr. Lancaster was
married in Henry county September
1, 1843, to Miss Sallie Booth, who pre-
ceded to the grave fourteen years.

To their union, a most happy one,
were born fourteen children, ten of
whom survive their parents. They are,
in order of their ages: Mr. George
W. Lancaster, of Omaha, Neb.; Mr.
Charles J. Lancaster, of Paris; Mr. E.
C. Lancaster, of Lexington; Mrs.
Nannie Floyd, wife of Rev. J. F.
Floyd, of Charlottesville, Prince
Edward Island, Canada; Mrs. Sallie
Lloyd, wife of S. B. Lloyd, of Lex-
ington; Miss Margaret Lancaster, of
Lexington; Mr. John L. Lancaster, of
Brooksville, Ky., and Messrs. Henry
and Horace Lancaster, of Lexington.

Mr. Lancaster in early life was a
stock trader and building contractor in
Lexington. Later he engaged in farm-
ing in Henry county; returned to Lex-
ington where for many years he con-
ducted a meat store. He retired from
business about twenty years ago.

The direct cause of his death was
pneumonia, though for months past
he had been on a steady, gradual de-
cline, incident to his extreme age.
Until the beginning of the present
winter he had retained his vigor to a
remarkable degree and his mentality
remained unimpaired to the end.

The funeral services were held at
the residence of Mrs. Elliott Saturday
afternoon at 3 o'clock. Rev. I. J.
Spence, pastor of the Central Christian
church officiated, and the interment
followed in the Lexington cemetery.
The pall-bearers were his six sons:
Messrs. G. W. C. J., E. C., John,
Henry and H. C. Lancaster, who were
also the pall-bearers at the funeral of
their mother fourteen years ago.

Paris' Greatest Offering.

The marvelous offer of \$5.00 gold
filled glasses with lenses properly fit-
ted to each individual at the low figure
of \$1.00 drew hundreds of people who
consulted the expert opticians at Var-
den & Son's drug store on Main street.

Their work being high-class, people
of Paris are taking advantage of this
sale and great care is taken with each
individual and his or her eyes is given
special study and attention.

All work is guaranteed for one year
against breakage; lenses are exchang-
ed free of charge and a guarantee is
given with each pair sold making it
the greatest offer that the eye suffer-
ers of Paris have had in years. So if
you are having trouble with your eyes
we advise you to take advantage of
this wonderful offer which will close
January 28 and will positively never
present itself again.

BIRTHS.

—Born, on Wednesday to the wife
of Mr. Thos. Brannock, who resides on
the Ruddle Mills pike, a son; weight,
9 1/2 pounds.

Mr. Henry B. Vincent Coming.

On tonight, January 24, at 7:30 p.
m. there will be given an organ recital
at the new Baptist church by Mr.
Henry B. Vincent, of Chautauqua
fame. Mr. Vincent has been in Paris
before and everyone who heard him is
most enthusiastic and eager to hear
him again. Avail yourself of this rare
opportunity to hear a man on the
splendid new organ. Admission 50
cents.

Clark Chosen for Speaker.

It is now Mr. Speaker-elect Clark for Thursday night at their caucus in Washington the men who will constitute the Democratic membership of the next House of Representatives declared the minority leader of the present House to be their choice for Speaker in the next Congress.

This action was unanimous, and political historians at the Capitol said it is the first time in nearly a century that a Democrat had been nominated for the Speakership without opposition, except in cases where a man who has been Speaker was re-elected to that office.

While Champ Clark enjoys this unique distinction, it has been a foregone conclusion for some time that he would be the unanimous choice of the caucus.

But unlike his predecessors in the office, he will not be vested with a great power, inasmuch as the new regime has not been authorized to appoint the committees of the House.

This will be done by a committee of which the Speaker himself will not be a member. Mr. Clark, therefore, will also enjoy the privilege of being the first presiding officer of the House not to possess the extensive power exercised by men who previously have served in that position.

Pottery Clay Found in Glasgow.

Pottery clay was last week discovered on the suburban farm of A. L. Harris, a well known traveling man of Glasgow, and the discovery means another new industry for that city. Upon investigation it was found in unlimited quantities. One kind is a reddish color, while the other is the ordinary pottery clay. A movement is now on to organize a stock company for the purpose of developing the find. The clay was discovered by workmen who were letting out brick for the streets.

Liquor Case Affirmed.

The case of Brown & Proctor vs. Hughes, Mayor, etc., from Winchester, was affirmed Friday, the Court of Appeals holding that the local option election of 1909, when the whole city went wet, did not affect the precincts that went dry in the 1899 election when each precinct voted separately and that these dry precincts must vote separately on the liquor question before the result of 1899 can be changed.

James Still Wants Primary.

Congressman Ollie M. James has sent a letter to members of the Democratic State Executive Committee urging them, at their meeting in Louisville tomorrow, to include in the call for the State primary the United States Senatorship. He says there is no good reason why the people should be given a chance to nominate a state ticket in a primary and not also nominate a candidate for Senator in the same way. He derides the talk of candidates for Senator helping to elect Democratic Legislators because they are interested in getting their votes for Senator and says that if a man will betray his party before the election he would do so afterward. Mr. James earnestly begs the committee to rescind its action excluding the Senatorship, and live up to the party pledges which commit the party to the election of Senators by the direct votes of the people.

An Aut Description.

"This is what I call a hand-to-mouth existence," sighed the dramatic critic as he tried to cover his yawn with his right hand for the eighteenth time during the first performance of Dull-bell's new comic opera.—Harper's Weekly.

Defends Kentucky Horses.

A discussion as to the relative merits of horses bred on the ranges of the great northwest and in the Blue Grass of Kentucky came up before the House at Washington not long ago. The discussion was over a provision in the army appropriation bill providing for a training station for horses in Virginia, but the provision has dropped from the bill on a point of order. Representative Martin, of South Dakota, and Representative Mondell of Wyoming, supported the range horse, while Representatives Harvey Helm and A. O. Stanley argued for the Kentucky horse. Mr. Mondell took the ground that the army needed horses that were well trained in rarified air and dry climate, the former conditions producing great lung power and the latter tending to harden the hoof. Mr. Stanley didn't take any stock in the rarified air and great lung power. "A horse," he shouted, amid a gale of laughter, "doesn't run on his lungs. A statesman can. A good horse needs something besides a capacity to blow. Why, sir, you might as well think of sending a delegation to the garden of Eden, to the North pole, or a troop of angels from the pearly streets of paradise or the depths of hell as to suggest that a man should leave Kentucky looking for a horse. For the horse and the woman Kentucky challenges the world and claims unquestionable supremacy."

Killing of Babe is Charged.

Laura Alice Gray and her mother, Mrs. Lucy Gray, of the Shiloh neighborhood, Nicholas county, were arrested and taken to Carlisle Saturday on warrants issued from the County Court charging them with the alleged killing of an infant child found dead in that neighborhood. The authorities, suspecting foul play, had the body of the child exhumed in the Shiloh graveyard where it had been buried, and on examination, it is alleged, it was found that a portion of the child's head was crushed, a pin was found in its head and a wound at the corner of the right eye.

Versailles Fair.

At a meeting of the stockholders of the Woodford County Fair Association it was decided to hold the Woodford County Fair this year on August 2, 3 and 4. Large premiums will be offered for saddle and harness horses. The Woodford County Association has one of the best mile tracks in the State and accommodations for about a hundred horses, and the fair this year is expected to be one of the best in Kentucky.

Aids Old Men

The sudden change from years of activity of both body and mind to the quiet of later years causes the human system to undergo many changes, chief of which is in the digestive organs.

It becomes harder and harder to get the bowels to move promptly and regularly and in consequence many elderly men suffer not only from the basic trouble, constipation, but from indigestion, headache, belching, sour stomach, drowsiness after eating and similar annoyances. It is first of all necessary to keep the bowels open and then to tone the digestive muscles so as to get them to again do their work naturally. A violent cathartic or purgative is not only unnecessary but harmful, and something mild will do the work just as well.

After you have got through experimenting with salts and pills and waters of various kinds, and have become convinced that they do only temporary good at best, then try Dr. Caldwell's Syrup Pepsin, a mild, gentle, pleasant-tasting laxative tonic that is especially adapted to the requirements of old people, women and children, and yet is effective enough for anybody. Your druggist, who has handled it successfully for a quarter of a century, will sell you a bottle for fifty cents or one dollar, but if you want to make a test of it before spending any money send your name and address to Dr. Caldwell and he will gladly send you a sample bottle free of charge.

This remedy is rapidly displacing all other forms of medication for the cure of stomach, liver and bowel trouble, and families like Mr. O. F. Wisler's of Sycamore, Ill., and Mrs. Carrie Collier's of 325 N. Notre Dame street, South Bend, Ind., are now never without it in the house. They have tested it and know its grand value to every member of the family.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 50 Caldwell building, Monticello, Ill.

At the Lexington Opera House.

Possibly the most important attraction of the present theatrical season at the Lexington Opera House is the engagement of Virginia Harned Tuesday evening, January 24. Miss Harned will proffer a new play, "The Woman He Married," by Herbert Bashford, the well known dramatist, that deals with a new phase of New York life. Competent critics declare it is better than anything Miss Harned has had since her point starring tours with E. H. Southern not excepting "Iris" in which, under Mr. Charles Frohman's management she had two years of immense success in London and New York.

"Raffles," impersonated by Kyrle Bellew, who made him famous, will be at the Lexington Opera House Wednesday, January 25.

Although the play has been presented in every section of the country and Mr. Bellew has made "Raffles" almost a household name, so many requests came to the manager during the fall for a new production of this thrilling drama that Mr. Frohman asked Mr. Bellew whether he would play it for another season. And Mr. Bellew replied that nothing would give him greater pleasure as in his thirty odd years of stage experience no role had ever given him so keen enjoyment in the playing.

It will be the first reappearance of Mr. Bellew in this notable part in six years and theatre goers throughout America are eagerly anticipating his return to the delightfully suave gentleman crackman. The play is adapted from E. W. Hornung's well known stories and almost everyone knows the history of this clever polished burglar. Associated with Mr. Bellew are Miss Gladys Hanson, Miss Folliott Paget, Frank Connor, Jane May, Jane Tyrrell, Ernest Stallard and Frank Westerton.

The very newest in up-to-date comedy, with sparkling and sensational novelties interwoven in such a manner that the audience is kept on the qui vive of expectation throughout the entire performance is promised for Friday and Saturday, and Saturday matinee, January 27 and 28, at the Lexington Opera House. The comedy scene in this newest sensation all lead up to the complications in the second act, when surprise after surprise coming in such rapid succession completely mystifies and delights the audience to such an extent that they simply resign themselves to the next startling novelty and wonder how and when it will all end. "Mam'zelle" has been classed as a comedy of novelty surprises and situations, and a no more apt or fitting term could be applied to it, it is one continuous scream from start to finish, so do not miss this most delightful and novel performance of all that is best in up-to-date comedy.

THEATRICAL.

"The Wolf," which comes to the Paris Grand next Friday evening, tells of the temptation that comes to a little girl whose life has been all too barren of joy, owing to the harshness of a narrow-minded father. The girl is good and sweet all through, however, and her purity enables her to judge rightly.

The old father, with the cast-iron ideas of right and wrong, has almost crushed the spirit out of the poor little daughter.

Temptation comes to her when she learns, for the first time in her life, that the world is full of beautiful

things and the woman's natural craving for pretty things awakens her.

Of love at first, she knows nothing, but when she learns the wonderful lesson, she unfolds it as a flower to the sun.

The harshness of that old father ought to be a lesson to many a father. It will show them that if you want young girls to grow into pretty women, you must let the sunlight into their lives.

The stern old man tells his eighteen year old girl that she can never atone for the frailty of her mother. He tells her constantly how wicked she is, with her yellow hair and her black soul, and the poor girl actually grows to believe she is beyond redemption. Then, into her life comes the man who promises to take her away from it all, to give her all the lovely things her soul craves for. He fascinates her but he cannot make her love him.

There is a lovable boy in the story, the kind of boy you would like your sister to marry when she grows up. He is wholesome and mischievous and deliciously impertinent to the cranky old Scotch father.

Through the whole story there runs a vein of excitement that keeps one constantly on the alert, for the succeeding act.

It breathes of fresh air and adven-

Base Ball Notes.

Interest in base ball in Frankfort is being revived according to a report of a recent meeting held in that city, published in the Frankfort News and which is as follows:

"Although the weather was scarcely appropriate for a base ball bee, a small number of thirty-third degree fans and directors of the Frankfort Base Ball Club held a levee in the Police Court chamber Thursday night, and the movement to maintain a team representing Frankfort in the Blue Grass League, had a spirited inception. With the proper support and encouragement from the fans in general of the Capital City the club will be reorganized and rejuvenated for the season of 1911, and an earnest effort put forth to represent Frankfort in the Blue Grass League in a way to please the local bugs."

Manager Hogan Yancey, of the Lexington Club has announced that he has signed Irwin Smith, a left-handed pitcher; that a Hoosier named Donovan had been recommended to take the place of Jimmy Viox, who was drafted by Chicago and later released to Louisville, at short; that he is negotiating for a first baseman who stands 6 feet 4 inches in his socks, and that there is a chance for a game in Lexington April 2 with the Cincinnati Reds. All of this news is being listened to with a great deal of interest by the Lexington fans.

Will Ask for an Appropriation.

At a meeting of poultry raisers Friday night at Lexington held in connection with the State Poultry Show, Prof. M. A. Scovell, of the Kentucky Agricultural Experiment Station, stated that the legislature next winter would be asked to make an appropriation to establish a plant at the Experiment Station for the purpose of making practical experiments and illustrated methods by which poultry raisers could secure better chickens and eggs and make more money. He said he believed the appropriation could be secured if the poultry raisers would take concerted action on the question.

Prof. Scovell said that Kentucky gets \$15,000,000 for poultry and eggs every year and that at least that amount is lost because of improper methods and through waste. He told the poultrymen that they could assure the legislature that if a proper plant should be established in this state and leave more than \$7,000,000.

Prof. Robert R. Slocum, of Washington, D. C., who explained how indigestion causes "limberneck" in chickens and how the pale yellow yolks of cooked eggs that frighten people in the winter are the result of too little sun and of improper food. He stated that attention to the production of eggs in Kansas had caused higher prices in the markets of the country for Kansas eggs and said that on account of inattention to the same points Kentucky eggs do not have a good reputation in the markets of New York.

Escaped With His Life.

"Twenty-one years ago I faced an awful death," writes H. B. Martin, Port Harreison, S. C. "Doctors said I had consumption and the dreadful cough I had looked like it sure enough. I tried everything I could hear of for my cough, and was under the treatment of the best doctor in Georgetown, S. C., for a year, but got no relief. A friend friend advised me to try Dr. King's New Discovery. I did so, and was completely cured. I feel that I owe my life to this great throat and lung cure." Jersey Cows Sell at Fair Prices.

Fifty-four head of Tennessee Jersey cows were sold Saturday afternoon at the livery stable of T. G. Morris on Main street by Auctioneer George D. Speakes. The prices obtained were very satisfactory. The range of prices were from \$37.50 to \$112.50, with the bulk of the sales around \$65. The sale was attended by many buyers from surrounding counties.

Small Stable Burned.

The fire department was called out at eleven o'clock Saturday night in response to a telephone alarm. A small stable in the rear of the residence of the Misses Owens, on South Main street, was burned. A buggy, the property of Miss Margaret Terry, which was in the stable, was also destroyed. A number of chickens, said to be in the building, could not be found in the ruins, which lead to the belief that thieves had taken the chickens and in their hurry to get away had probably dropped a lighted match, starting the flames which consumed the structure.

Dies Suddenly of Heart Trouble.

Mr. Jasper Offutt, one of the most prominent farmers of the county and one of our most prosperous citizens, died suddenly about six o'clock Saturday afternoon as the result of an attack of heart trouble, while he was in Lexington on business.

Mr. Offutt was walking along Fifth street near Limestone when stricken. He was assisted to the home of Mayme Corbin, a colored woman.

When he was reached by the woman he was gasping for breath and asked for some place to sit. Saying she was very ill. The colored woman assisted him to her porch and went to telephone for an ambulance and for a physician. In the meantime Mr. Offutt layed into unconsciousness, and expired before help arrived.

Coroner J. D. Kiser, of Lexington, held an inquest over the remains Sunday afternoon and death was pronounced to be due to heart trouble.

Mr. Offutt, who resided on the Lexington pike near this city, was about sixty years of age. He was married and is survived by his wife, a sister, Mrs. Mary Ellen Bryan, of Georgetown, and a nephew, Dr. F. F. Bryan, of the same city.

Mr. Offutt was one of the most prominent and influential men of Bourbon county and his death came as a great shock to his many friends throughout the county.

The funeral services were held at his late residence on the Paris and Lexington pike yesterday afternoon at 2:30 o'clock, conducted by the Rev. Dr. B. M. Shive, of the Presbyterian church. The body was laid to rest in the Wilson lot in the Paris cemetery.

The pall-bearers were Claude Paton, Aron Paxton, F. F. Bryan, Jr., J. H. Thompson, Luther Jacoby, John Brennan, H. Nichols and George O. Bryan.

Interurban Cars Collide.

A collision of two cars on the Nicholasville interurban line out of Lexington occurred Friday afternoon in Lexington and in which Conductor Soulesley was seriously injured. A work car was going into Lexington and the peculiar lay of land at the point where the collision occurred prevented the motorman from seeing the danger until it was too late to stop. Motorman Sanders of the outgoing car, narrowly escaped death by jumping after he had reversed the current and applied the brakes. The car was badly damaged and all the passengers severely shaken up but no one was injured.

A Good Move.

The considerable expense of the John Davey lecture at the court house Saturday night is borne by public-spirited citizens who believe that an aroused interest in the subject discussed will result in enough good to the county to pay for the effort.

Negro Horse Thief is Arrested.

Sherman Johnson, alias Wm. Payne, a negro, was arrested last week by Officer James Gibson, of North Middletown, and turned over to the authorities at Danville where he was wanted for stealing a horse and buggy from Mr. Joe Ware, of that city.

Johnson has been an offender in this part of the country for several years. About ten years ago he stole a horse from Mr. Jos. Hildreth, who lived near Paris, and was taken into custody by the officers at Mt. Olivet. He was convicted in the Robertson county court and served a term in the State penitentiary.

After being released from the penitentiary he returned to Bourbon county. Shortly after his return he stole a large quantity of grass seed during the harvest and to avoid arrest fled to Boyle county, where he assumed the name of William Payne. Under this alias he was convicted in the Boyle Circuit Court on a charge of forgery and served another term in the penitentiary.

When the term of his sentence expired he returned to Boyle county and last August committed the theft of a horse and buggy the property of Mr. Ware, and has since been a fugitive. Marshal Gibson, of North Middletown, had been furnished with a description of the negro by the Boyle county officials, who thought perhaps he would return to Bourbon, and the North Middletown officer has since been on the lookout. A few days ago he located Johnson and placed him under arrest. He was taken immediately to Danville where he was turned over to the Boyle county authorities.

Independent Meeting is Held.

A meeting of the independent tobacco growers of Bourbon county was held at the court house Saturday afternoon. About one hundred and fifty growers composed the enthusiastic gathering of the advocates of the cut-out movement and the opponents were conspicuous by their absence.

The meeting was called to order by Mr. Kenney Nichols which was followed by the selection of Mr. Chas. Clark, of North Middletown, as chairman. Mr. Sherman Stivers was elected secretary. Mr. Clark addressed the gathering saying that from what transpired at the convention held in Paris last Saturday it was very evident the chairman was the entire show, but as there was nothing before the meeting that required the application of "railroading" tactics, he hoped the meeting would be one of harmony and free from the objectionable features that marked the convention held last week. Mr. Clark, who is an anti-pool man, declared that if the result of the cut-out pledge depended wholly upon his vote he would sign without hesitation, as his entire sympathies were with the movement. He then introduced Mr. Wilson.

Mr. Wilson addressed the growers at length and from every viewpoint of the subject before the meeting. He said that being a grower in the dark district he had come into the fight for a cut-out in the Burley district as a volunteer and had been honored with a position on the Campaign Committee of the Burley Tobacco Union. Feeling that the forces in the dark district had become thoroughly united in support of the movement, his attentions were directed to the doubtful portion of the Burley belt.

The effect of the failure of the cut-out movement in the Burley district would be keenly felt by the growers in the dark district, he declared, and in event of this failure tobacco would be grown in the Burley district and disposed of at a price below the cost of production. This, he added, would greatly decrease the price of tobacco in his district.

During the course of his address Mr. Wilson called the attention of those present to the men who were opposing the cut-out movement in Bourbon county. He said that they were the aristocratic land owners, men of wealth, and who cared nothing for the tenant other than that which they were enabled to acquire through his labor. He said the failure of the Burley pool could be laid at the door of Bourbon county, because it was this county that took the first step which resulted in its collapse. Only professional "dumpers," he said, sold their crops last year and fully eighty per cent of the crop of 1910 yet remained in the hands of the growers.

Mr. Wilson appealed to the growers of Bourbon county to come forward and sign the pledge, and not stand back when the majority of the counties in the tobacco growing district wanted to cut out the crop this year. He said there would be no doubt as to the success of the movement even though Bourbon refused to stand by the majority, as the day had come for the growers to stand shoulder to shoulder and fight for the common cause, and within ten days, he predicted, the success of the movement would be announced.

At the conclusion of his remarks, Mr. Wilson invited the growers present who had not signed the pledge to come forward. About five hundred acres were pledged to the cut out, which together with those secured at the meeting last Saturday and the pledges that have not been reported will bring the acreage to an approximate total 1,500, which is less than one-third of the acreage of the county.

After the meeting Mr. Wilson stated existing conditions in Bourbon county were due entirely to the fact that the pool men were not heartily in sympathy with the movement of the Burley Tobacco Union and instead of working as they should, to further the cause in Bourbon were inclined to lay back in this meeting.

TIGHT HATS.

They Impede Circulation in the Scalp and Invite Baldness.

Ingenious men are continually contriving new kinds of shoes, new suspenders and hundreds of different kinds of braces, but so far, says the Therapeutic Gazette, no one has taken up the idea of making a hat which will hold on the head and not blow off and at the same time not bind the head all around like a constricting band.

Some men go without hats at times with the idea that the hair is improved by ventilation and sunshine. Undoubtedly this does improve it, but the prime secret is not in not wearing the hat at all. The ventilated hat will not prevent baldness if this same hat be worn tightly around the head. If a string be tied ever so lightly around the finger the effect upon the circulation may be easily marked in the end of that finger. A tight hat will affect the circulation of the scalp in the same way.

Hats which are easily blown off should never be worn, as they will not stay on unless jammed so tightly upon the head as to impede circulation. All stiff, rigid hats should be very light, and one should select a size larger than the head measurement and correct the over size by inserting felt strips under the sweat band, thus giving a cushion-like effect and preventing the constriction at that portion of the scalp.

FIRST POST HOUSES.

Established by Cyrus, the Founder of the Persian Empire.

The first posts are said to have originated in the regular couriers established by Cyrus the Great about 550 B. C., who erected post houses throughout the kingdom of Persia. Augustus was the first to introduce this institution among the Romans, 31 B. C., and he was imitated by Charlemagne about 500 A. D. Louis XI. was the first sovereign to establish post houses in France, owing to his eagerness for news, and they were also the first institution of this nature in Europe. This was in 1470, or about 2,000 years after they were started in Persia.

In England in the reign of Edward IV. (1481) riders on post horses went stages of the distance of twenty miles from each other in order to procure the king the earliest intelligence of the events that passed in the course of the war that had arisen with the Scots. A proclamation was issued by Charles I. in 1631 that, "whereas to this time there hath been no certain intercourse between the kingdoms of England and Scotland, the king now commands his postmaster of England for foreign parts to settle a running post or two between Edinburgh and London to go thither and come back again in six days."

The Active Sloth Bear.

"The sloth bear appears to be the most active of all the bears in the zoo. Whoever misnamed the animal ought to bestow a more appropriate title," said a woman visitor who sat on a bench in front of the bear den.

"A more befitting designation would be 'Ursus pugilisticus' or something like that, for he is certainly the most pugnaucious of all the bruin specimens here. And he gets away with it, too, although he weighs only 250 pounds. I saw him knock out the hairy eared bear in a fierce fight over a piece of meat, and he gets the better of the great Yezo bear of about 1,000 pounds in the adjoining inclosure. They fight through the bars. You can hear the snapping of the big bear's jaws as he fails to catch his opponent. But the nervous sloth bear is as quick as a cat with his long claws and gets in a dig on the other one's muzzle that makes him snort with pain."—New York Sun.

Salt and the Romans.

Spilling of salt is a superstition still current among us. It is derived from the ancient Romans, who used salt in their sacrifices and regarded it as sacred to Penates. To spill it carelessly was to incur the displeasure of these household divinities. After accidentally spilling salt the ancient Roman was wont to throw some over the left shoulder—the shoulder of ill omen—thereby hoping to call away from his neighbor the wrath of the Deity and turn it upon himself.

Elephants' Love For Finery.

Strange as it may seem, the elephant is passionately fond of finery and delights to see himself decked out with gorgeous trappings. The native princes of India are very particular in choosing their state elephants and will give fabulous sums for an animal that exactly meets the somewhat fanciful standards they have erected. For these they have made cloths of silk so heavily embroidered with gold that two men are hardly able to lift them. —Pearson's Weekly.

Kill More Than Wild Beasts.

The number of people killed yearly by wild beasts don't approach the vast number killed by disease germs. No life is safe from their attacks. They're in air, water, dust, even food. But grand protection is afforded by Electric Bitters, which destroy and expel these deadly disease germs from the system. That's why chills, fever and ague, all malarial and many blood diseases yield promptly to this wonderful blood purifier. Try them, and enjoy the glorious health and new strength they'll give you. Money back if not satisfied. Only 50c at Oberdorfer's.

Ends Winter's Troubles.

To many winter is a season of trouble. The frost-bitten toes and fingers chapped hands and lips, chilblains, red and rough skins, prove this. But such troubles fly before Bucklen's Arnica Salve. A trial convinces. Greatest healer of burns, boils, piles, cuts, sores, bruises, eczema, sprains. Only 25 cents at Oberdorfer's.

Discuss Sheep Scabies.

At a meeting of the State Live Stock Sanitary Board, held in Lexington Friday and at which Commissioner of Agriculture M. C. Rankin, presided, the situation which, on account of the prevalence of scabies and other diseases among sheep in the State has caused danger of a quarantine by the United States authorities, was discussed and methods of improving the condition of sheep in the State were suggested. That the scabies in Kentucky might be quickly and effectually eradicated, a recommendation was offered

that the Federal quarantine authorities, while quarantining other states against Kentucky sheep, should be applied to for an order preventing other states from shipping sheep into Kentucky unless inspected and provided with a clean bill of health.

Horses Burned in Cynthiana Fire.

The stable of James W. Smiser, in Cynthiana burned Friday. The cause of the fire is unknown. The loss is about \$2,500, with no insurance. Four horses were burned, together with all

the contents of the stable. For a time the fire threatened a large area of the business district. A tank of two hundred gallons of gasoline was only a few yards from the burning stable, in the yard in the rear of the grocery of Rees, Garnett & Rees, which caused fear that the fire would get to the gasoline.

Master Herbert Gardner, the little son of Elder W. A. Gardner, who resided here until November, died at the home of his father at Olatha, Kansas, January 17, after a short protracted illness. Herbert has been in a decline since early last spring. It was thought when the summer weather came on he would build up.

When the family broke up for the summer, after Elder Gardner resigned his charge as pastor of the Christian church here, Herbert went to Shelby, O., to spend the summer with friends. During the time he gained no strength and when the family returned in the fall he was unable to come. Later in the autumn he was seized with a serious attack of pneumonia and for a number of days his life was despaired of. However, he rallied, but never regained his strength.

About the first of January he was moved to the home of his father at Olatha, Kansas, where he continued to grow worse until the end came. The grief-stricken family have the sympathy of a multitude of friends here who are deeply interested in their welfare and success.

Elder Carey E. Morgan, of Paris, began his series of three lectures at the Christian church Monday evening. The house was well filled and the lecture was more than well received. The lecture was illustrated with

beautiful stereopticon views of the most important points of interest viewed by Elder Morgan while touring the Holy Land. Those who heard the lecture last night are sure to attend again. The second lecture of the series will be given tonight and the last on the evening of Thursday, January 26. All should avail themselves of the opportunity to hear this gifted speaker.

Mr. and Mrs. Arthur Collins, of Carlisle, were the guests of relatives here Sunday.

Miss Hazel Duvall, of Paris, was the guest of Miss Maria Smith from Saturday to Monday.

Mr. Roscoe Linville left Monday for Lexington where he will probably secure a position.

The recital which was announced to take place at the Millersburg Female College on Friday night has been indefinitely postponed.

Mrs. Flanders, who resides about two miles south of town, had three sheep killed by dogs Saturday night.

Millersburg should be well represented at the John Davey lecture to be given at the court house in Paris, on Saturday, January 28, at 2 p. m.

Mrs. A. S. Best is visiting her parents, Dr. and Mrs. Alex Hunter at Washington. Mr. and Mrs. Best spent Saturday night and Sunday with their uncle, Mr. Thomas Best, and family in Mayville.

Rev. T. W. Watts preached the first of a series of six illustrated sermons on "Pilgrim's Progress" Sunday night at the Methodist church. The house was well filled and the sermon, which was illustrated with excellent stereopticon views, was good.

Contracted Poison and Goes Insane.

Barlow Brown, the man who was sewed up in the carcass of a mule while in an intoxicated condition, at Blairsville, Ga., by some companions several weeks ago, has gone insane as a result of blood poisoning contracted from the mule's carcass. The four men responsible for the practical joke have fled the country. Brown is not expected to recover.

Millinery at Cost.

All our millinery, ribbons, flowers, birds, feathers, etc., go on sale Friday, January 13 at cost and below. Sale lasts two weeks. This is a rare opportunity for the ladies to get bargains. We must raise cash so nothing will be put on the books during this sale.

13 4t CORNE WATSON BAIRD.

Killing of Babe is Charged.

Laura Alice Gray and her mother, Mrs. Lucy Gray, of the Shiloh neighborhood, Nicholas county, were arrested and taken to Carlisle Saturday on warrants issued from the County Court charging them with the alleged killing of an infant child found dead in that neighborhood. The authorities, suspecting foul play, had the body of the child exhumed in the Shiloh graveyard where it had been buried, and on examination, it is alleged, it was found that a portion of the child's head was crushed, a pin was found in its head and a wound at the corner of the right eye.

At the examining trial the girl was sent to jail without bond to await the action of the Nicholas county grand jury, while the mother of the accused was released from custody.

Citizens Complain About Crossings.

Considerable complaint has been heard from the residents of both High and Pleasant streets about the crossings that were removed a few years ago. During the past week the condition of both streets has been something terrible. Pedestrians have been compelled to wade through mud almost ankle deep to get from one side of the street to the other. There is no way of flushing either High or Pleasant to get rid of the mud for the want of crossings and the citizens are compelled to go through the deep mud whenever it rains. We would suggest the city fathers take some action and replace the crossings that were removed.

Sunday School Teachers Organize.

The Sunday school teachers of the various churches of Paris met Sunday in the Christian church and organized the Interdenominational Sunday School Teachers Union. The purpose of the organization is to instruct the Sunday school teachers of the churches in Paris in the work. The organization was perfected by the election of Mr. H. A. Power as President, Mrs. Walter Clark, Vice President and Mr. D. Y. L. Farley, secretary. The first meeting of the organization will be held in the Christian church next Sunday. Prof. George W. Chapman will instruct the adults' Bible class; Mrs. Walter Clark, intermediate; Mrs. Robert J. Neely, junior class and Mrs. Lizzie Walker the primary class. The meeting will be held at three o'clock in the afternoon and all the Sunday school teachers in the county are invited to be present at the meeting.
